UN Sustainable Development Goal 7

Energize the Future

Affordable and clean energy for everyone — play it, measure it, change it.

Why it matters

~660 M
people still have no electricity

~2.1 B
cook without clean fuels

~30%
of the world's power is renewable

Try it at our stand

1. **Play Energy Hero**
   Run a polluted city on a tight budget. 10 levels, 25 seconds a decision. Can you beat 2,000 points?

2. **Check an appliance**
   How much does your fridge cost per year — and how many trees would its CO_2 need?

3. **Compare old vs. efficient**
   See what an LED bulb saves compared with an incandescent one.

4. **Switch language**
   English, Română, Русский — everything changes instantly.

5. **Share your idea**
   Tell us one way to make your community more sustainable.
